Hiring Manager

Tata Consultancy Services (TCS)  
Mumbai, Maharashtra, 400088

Respected Hiring Manager,

I am writing to express my interest in the IT position at Tata Consultancy Services (TCS). I have always been inspired by TCS's role as a leader in IT services and solutions. TCS's commitment to technological advancement and digital transformation perfectly aligns with my passion for IT and my desire to be part of cutting-edge projects that drive business success.

Graduating with a strong academic foundation in Information Technology, I have gained commands on programming languages such as Python, C++ and SQL, as well as hands-on knowledge in web development, database management, and software engineering. My coursework and projects have equipped me with the skills needed to solve complex problems, manage data effectively, and design user-friendly applications. One of my key projects involved developing a web-based system for managing real-time data, which enhanced my ability to think critically and work efficiently in a team environment.

Please find my resume attached for your consideration. I would welcome the opportunity to discuss how my skills and experiences align with TCS's needs. I would greatly appreciate the opportunity to discuss the role further in an interview and explore how I can contribute to TCS Technologies's success.

Yours sincerely,

Sakshi Patil
